

## **Miracle Air In-Duct Air Purifier**

**the next generation of indoor air quality**

The Miracle Air in-duct air purifier is the next generation of indoor air quality (IAQ) technology and capable of purifying every cubic inch of air that your central air conditioning system reaches. Designed to eliminate sick building syndrome risks by reducing odors and air pollutants, the Miracle Air in-duct air purifier is the best solution for whole house and building air purification.

Invented to recreate nature's process of purifying the air, it's like bringing fresh outdoor air inside without ever having to open your windows. And it's effective against all three categories of indoor air pollutants: Particulates, Microbial and Gases.

You can now reduce common allergy triggers from particulates such as pollen, mold spores, dander and dust. Thoroughly tested on airborne and surface bacteria & viruses, such as MRSA, e-coli, and Norwalk, to name a few. Say goodbye to odors from cooking, pets, dirty socks, diaper pails, and musty rooms.

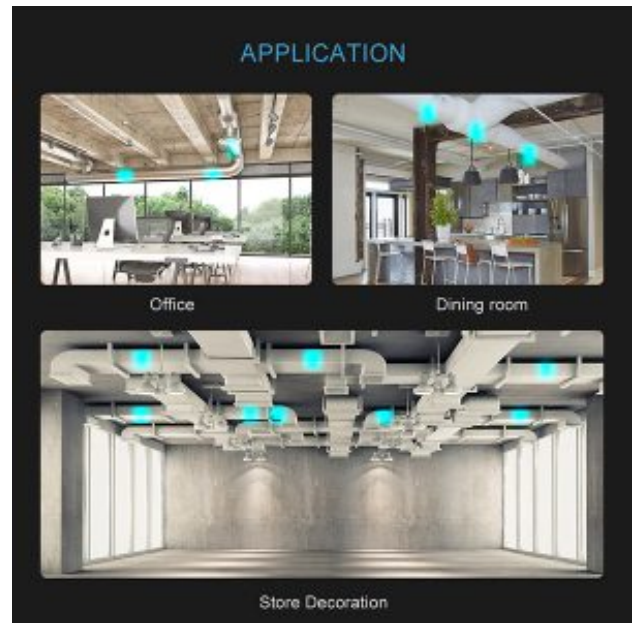

### How the Miracle Air in-duct air purifier works:

The Miracle Air in-duct air purifier utilizes Reflective Electro Magnetic Energy technology. Installed into the supply plenum of your existing air conditioning or heating system air ducts, the Miracle Air in-duct air purifier produces Hydro-Peroxide plasma that is distributed through the air handler, through the duct system and into the conditioned living space. Unlike passive air technologies, which need pollutants to pass through the unit for purification or filtration, the Miracle Air in-duct air purifier sweeps through your home actively purifying pollutants at the source. In addition, the charged plasma induces particles to coagulate or stick together making them bigger and easier for your filter to catch. Hydroperoxides occur naturally in the earth's atmosphere and are part of nature's process of cleaning the air.

## Features & Benefits the Miracle Air in-duct air purifier

- Dual ionizers to reduce airborne particulates (dust, dander, pollen, mold spores)
- Kills up to 99% of bacteria, mold and viruses
- Miracle Air reduces sneeze germs by 99% in the time a sneeze can reach three feet.
- Unlike portable units that are limited to the room in which they are placed, the Miracle Air provides whole home and building purification.
- Easily integrated with your existing HVAC system. The unit doesn't take away living space and operates silently.
- Two (2) quick release features for easy, no tool, cell replacement

## Application

The Miracle Air can be installed in a wide variety of residential, commercial and industrial applications where a ducted HVAC system exists. Here are some examples:

- Single family homes, apartments, condos
- In hospitals, nursing homes, assisted living facilities, and doctor's offices
- Schools, daycare centers, colleges and universities
- Fitness centers, locker rooms, athletic facilities
- Office buildings
- Veterinary clinics, animal hospitals, kennels,
- Hotels, motels, and resorts.
- Food processing and manufacturing plants/facilities
- Restaurants, diners, and bars

## SPECIFICATIONS

MODEL : MIRACLE AIR IN-DUCT AIR PURIFIER

WATTS: 36W

CFM'S: 1,000 - 6,500

STERILIZATION PRINCIPLE : Photo-hydro Ionization

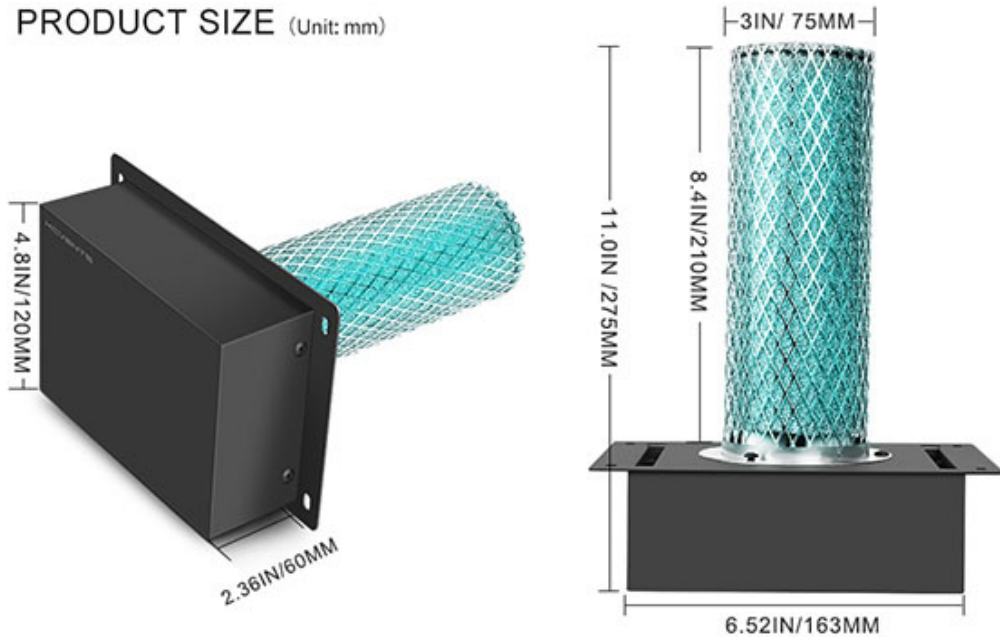

POWER SUPPLY: 220V/50HZ

STERILIZATION EFFICIENCY: 99%

INSTALLATION: In Duct

HYDRO-PEROXIDES: <0.02 PPM

### PRODUCT SIZE (Unit: mm)

### Technical Specs

**Model: MIRACLE AIR IN-DUCT AIR PURIFIER**

**Technology PHI(Photohydroionization)**

**Material Galvanized sheet/ Titanium**

**Warranty 5 years ballast / 2 years cell**

**Recommended Cell Replacement 18,000 – 25,000 hrs.**
